

“Enhancing Hypertrophic Cardiomyopathy (HCM) care in the Leeds Community”

“Termination Statement of Joint Working Project”

Bristol Myers Squibb (BMS), Shine Clinical and Leeds Teaching Hospital NHS Trust entered into an agreement to deliver a “enhancing hypertrophic cardiomyopathy (HCM) care in the Leeds Community” collaborative working project.

Due to unforeseen circumstances within Leeds Teaching Hospital NHS Trust, the parties have agreed that the project objectives could no longer be met. The collaborative working agreement terminated in December 2024.

The project originally commenced in December 2023 and was terminated in December 2024.
